COURSE OVERVIEW

Build the right preparation plan.

Start with the target role, current experience, intended credential, preferred delivery format, and target date.

FOCUS	LEVEL	DELIVERY
IIBA certification selection	Foundation to experienced professional	Flexible live online, classroom, or corporate learning

WHAT YOU CAN BUILD

Credential selection Compare foundational, core, and specialist IIBA certifications against your experience and goals.	Analysis practice Strengthen elicitation, requirements, stakeholder collaboration, and solution evaluation.
Business value Connect analysis decisions to outcomes, change, product delivery, and organizational value.	Exam readiness Map learning and practice to the current handbook and blueprint for the chosen credential.

CURRENT CREDENTIAL GUIDANCE

IIBA

IIBA offers credentials for different experience levels. Select the target credential first so the learning plan can align with its current handbook and exam blueprint.

Ask an MTK learning adviser which current provider requirements apply before enrolling or booking an exam.

DETAILED SYLLABUS

Move from foundation to applied preparation.

Shape the syllabus around the selected credential version, delivery option, and learner group.

1	Career and credential choice	Compare ECBA, CCBA, CBAP, and specialist options using current IIBA requirements.
2	Planning and monitoring	Plan the analysis approach, governance, information management, and performance improvement.
3	Elicitation and collaboration	Prepare for, conduct, confirm, and communicate stakeholder information.
4	Requirements and strategy	Analyse current and future states, risks, change strategy, requirements, and designs.
5	Solution evaluation	Measure performance, analyse limitations, and recommend actions that improve value.
6	Application and exam readiness	Use practical scenarios, question practice, gap review, and the selected credential blueprint.

LEARNING ROADMAP

Choose Match the credential to your role and experience.	Plan Align eligibility, version, delivery, and learning support.	Learn Complete guided learning and independent review.
Practice Apply concepts and close knowledge gaps.	Prepare Use mock questions and a readiness plan.	Certify Complete the official assessment and award route.

LEARNING OPTIONS AND NEXT STEPS

Choose the support that fits.

Explore delivery, materials, practice, exam planning, and continued learning support with an adviser.

Delivery Live online, classroom, on-site, or corporate cohort; location and timezone.	Schedule Session dates, live learning hours, independent study, and access period.
Materials Official or provider resources, labs, recordings, and platform access.	Practice Question banks, mock exams, practical work, feedback, and readiness review.
Exam Registration route, voucher, validity, taxes, resit terms, and separate fees.	Support Adviser access, post-training resources, study planning, and team reporting.
